

Hilltop Technologies Rental Program

The Hilltop Technologies Rental Program is designed to meet your communication needs and keep your system running smoothly so that you can focus on your business.

Gain peace of mind knowing experts will properly maintain your system to avoid downtime and maximize efficiency. This program provides protection against obsolescent technology and gives you the ability to budget your full communication expenses.

BENEFITS OF THE PROGRAM INCLUDE:

Installation, Service & Warranty

The costs of maintaining, installing and servicing the equipment are covered for the full term.

Training

To realize the business results the solutions are designed to achieve, we provide you free user training and basic system administration training.

Physical Loss or Damage Coverage

Coverage for direct physical loss or damage to the equipment including lightning, fire, flood and theft. The cost for this coverage is included in your monthly payment and there is no deductible.

Upgrade & Add-On Flexibility

You have the option to upgrade or expand your system at any time during the program with minimal impact on your monthly payment.

Software Upgrades

Minor software upgrades are included to help you stay up-to-date and performing optimally.

Simplicity

An all-inclusive solution so you do not have any ownership issues to worry about. One document to sign and one easy-to-read invoice simplifies things for you.

Potential Tax Advantages

The monthly payment may qualify as a deductible operating expense because this program is a service. Consult with your tax advisors for your situation

Budgeting

Approximately half of all expenses associated with equipment ownership are wrapped up in maintenance, training and add-ons. This program covers virtually all unplanned communication expenses in one monthly payment.
